TORONTO ACADEMY OF DENTISTRY

OUR ACADEMY

The ACADEMY OF DENTISTRY, formerly the Toronto dental society, has been functioning continuously since 1890. It has provided leadership and service to both the profession and the community, and will continue to do so in the future.

The OBJECTS of the Academy are:

1. Advancement of the art and science of dentistry.
2. To promote the highest ideals of dental practice.
3. Cultivation of harmony and good fellowship among its Fellows, and among the members of the dental profession generally.

Some of the specific services provided are as follows:

1. The Annual WINTER CLINIC.
2. After hours EMERGENCY TREATMENT service for the public.
3. The Annual WINTER CLINIC/INFORMATION BOOK, a directory of dental organizations.
4. The LADIES' AUXILIARY, which provides support for worthy dental projects, and various fellowship activities.
5. PUBLIC RELATIONS, a secretary to answer the public's queries and complaints.
6. An ELECTED COUNCIL, representing all Metro Toronto dentists and their local component societies.
7. CO-ORDINATION of dental and fellowship functions within Metro Toronto.
8. DENTAL MEETINGS with excellent programs and clinicians.
9. Assistance in formation of new STUDY GROUPS.
10. HONOURARY MEMBERSHIP to recognize outstanding dentists.
11. Fellowship activities such as the Annual GOLF TOURNAMENT, CURLING BONSPIEL, and SKI DAY.
12. MEDIATION services for the public.
13. COMMUNICATION with dental auxiliary organizations.
14. Provides an ASSOCIATE PLACEMENT service.

THIS IS OUR ACADEMY.
KEEP IT STRONG.
SUPPORT IT, ENJOY IT.

PRESIDENT'S MESSAGE

JERRY WEISBERG, D.D.S.

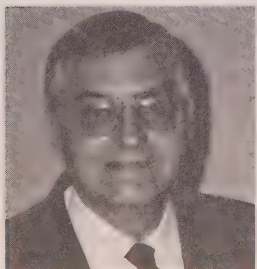

Welcome to the Fifty-Fourth Annual Winter Clinic of The Toronto Academy of Dentistry. This year following our Centennial Year has been quite a remarkable one. Brian Mulrooney's resignation following the complete failure of the GST, amalgam restorations being declared a recognized cure for acne and premature baldness as well as the discovery of four sur-

vivors of the Titanic floating on a raft in the South Atlantic have been just a few highlights of 1991 thus far. Of course none of these things happened. I wrote them on the premise that no one ever reads these messages. But in case you are, I hope you will enjoy yourselves and profit from our excellent clinical program and better-than-ever commercial exhibit floor.

Have a great day!

CHAIRMAN'S WELCOME

GODFREY BEBER,
D.D.S., B.Sc.D. (Anaes)

On behalf of the Toronto Academy of Dentistry, I take this opportunity to extend a warm welcome to everyone attending this the 54th Annual Winter Clinic Meeting. We, as always, have endeavoured to provide for you an educational and stimulating day.

Continuing education is, as never before, essential in order to keep abreast of new techniques

and technologies. We therefore offer you outstanding world class Clinicians, Table Clinics, Mini-Clinics and extensive Commercial Exhibits.

I look forward to greeting all of you on the 27th of November and hope that you and your staff find this a rewarding and informative day.

WELCOME FROM PRESIDENT OF THE O.D.N. & A.A.

CHARLOTTE PEER MILLER
PRESIDENT O.D.N. & A.A.

On behalf of the Membership of the Ontario Dental Nurses and Assistants Association I extend to the members of the dental health team a cordial invitation to attend the Toronto Academy of Dentistry's 54th Winter Clinic.

The O.D.N. & A.A. is proud to have this annual opportunity to team up with the Toronto Academy of Dentistry and the Ontario Dental

Hygienists' Association to deliver this exciting program. The Dentists, Dental Assistants, Dental Receptionists and Dental Hygienists will all meet at the Metro Toronto Convention Centre on Wednesday, November 27, 1991. This year the O.D.N. & A.A. will be holding their Student Day program concurrently with the Winter Clinic.

The Executive Committee of the Ontario Dental Nurses & Assistants Association welcomes you to this day of continuing dental education and fellowship.

WELCOME FROM THE O.D.H.A. **BEVERLEY KASSIRER, PRESIDENT**

This 54th Annual Winter Clinic promises to be a day geared to the needs of all the allied dental health care professionals. Dental hygienists, as professionals and principal partners in the promotion of oral health, must always keep abreast of current dental research and treatment. Attending continuing education days such as Winter Clinic help to ensure your continu

ing competence; the topics are current, the speakers are knowledgeable, and the issues are relevant.

A special thank you to Barbara Greenglass, our Winter Clinic Chair, for helping to organize this "current, concise and concentrated" continuing education day.

I look forward to seeing you there. Please feel free to approach me at any time.

“The tumult and the shouting dies the captains and the kings depart”

The Centennial Year for the Toronto Academy of Dentistry has passed into history. As magnificent a history as it is, the Academy's achievements will be punctuated by its generosity towards the less fortunate in our society.

As a result of the effort to mark this year of significance, The Hugh MacMillan Centre and in particular its dental department received a gift of \$110,000.

This gift was generated from the dedicated work of Dr. Wayne Pulver, the Academy's Committee members, the dental industry, the Academy's patrons and all those who attended and supported the Centennial Gala.

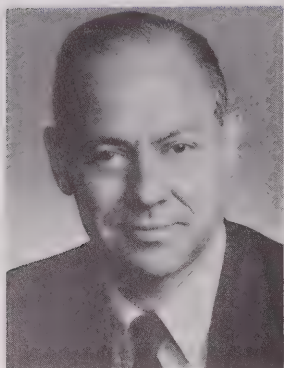

All members can be proud of this example of The Toronto Academy of Dentistry's extending help to those in need.

Dr. Don Stewart

ACTION STEPS TO ACHIEVE PHENOMENAL GROWTH IN THE 1990's

BOB LEVOY

SYNOPSIS

The hallmark of Bob Levoy's success is consistency. Consistently over time he has been able to deliver the information that the dental team needs and uses.

Dentistry is in a state of transition; almost a paradigm shift. Therefore, the Academy is pleased to present to its members Bob Levoy's method for integrating that shift.

Principally he will deal with:

9 WINNING STRATEGIES TO ATTRACT NEW PATIENTS IN THE 1990's.

- The Expectations Gap: the key to referrals
- 5 Management Decisions for Growth
- Achieving growth without wrong marketing
- Surprising reasons for today's New Breed patients' dentists selection
- Telemarketing
- Networking and Nichemanship
- New Ground Rules for fee increasing
- The Success File: Models of Success
- Staff promotion for satisfaction, referrals and growth

BIOGRAPHY

Bob Levoy has presented to Toronto audiences many times in the past. He is Director of Professional Practice Consultants, a market research firm in Great Neck, New York, as well as the author of two books, over 300 articles and a monthly columnist for Dental Economics magazine.

Room: Theatre

Time: 9:00 - 11:30 a.m. and 2:15 - 4:45 p.m.

Chairman: Dr. Stan Waese

**BOB LEVOY'S PRESENTATION IS AN ALL-DAY LIMITED
ATTENDANCE SEMINAR OF INTEREST AND VALUE TO THE
ENTIRE DENTAL TEAM.**

STATE OF THE ART ADHESION DENTISTRY

JOHN KANCA, III, BA, DMD

SYNOPSIS

This course will cover all aspects of adhesion and how it fits into virtually every phase of general dental practice. Proper use of adhesive materials can dramatically improve the quality of everyday dentistry.

- Learn why we were taught that acid etching will kill the pulp and why that is incorrect.

- Learn how to bond resin to wet dentin and enamel using a technique developed by Dr. Kanca.

Wetbonding is real and it may be the best dentin-enamel bonding system yet.

If you want to learn the truth about materials and their effects on the tooth and the pulp and hear products named, this course is not to be missed.

BIOGRAPHY

Dr. Kanca graduated in 1978 from the University of Connecticut with his DMD. He is currently President of the American Academy of Cosmetic Dentistry and practices cosmetic dentistry predominantly in Middlebury, Connecticut. Presently he is assistant professor for dental materials at NYU and does research in adhesive dental materials.

Room: 202BD

Time: 9:00 - 11:30 a.m. and 2:15 - 4:45 p.m.

Chairmen: Dr. Murray Wagman Dr. Roman Dacko

IMPLANTS: INTEGRATING BIOLOGICAL, ANATOMICAL AND RESTORATIVE VARIABLES

GERALD NIZNICK, D.M.D., M.S.D.

IMPLANTOLOGY FROM THE PROSTHODONTISTS' PERSPECTIVE (Morning Lecture)

SYNOPSIS

The ultimate responsibility for satisfactory restorative results lies with the restorative dentist. Although the surgical placement and retention of im-

plants has become eminently predictable; nevertheless, successful restoration depends upon:

1. The surgical skill and appropriate choice of implant design and material in order to keep the ultimate prosthesis close to the dentist's and patient's pre-treatment expectations.
2. Surgery that fits the implant to the patient, not the opposite.
3. The method of connecting abutments to implants in order to obtain parallelism.
4. An understanding of implant component fracture susceptibility.
5. The ease of long term maintenance and necessary compromises that develop during treatment.

MATERIAL, DESIGN AND SURGICAL CONSIDERATIONS IN IMPLANT SELECTION (Afternoon Lecture)

SYNOPSIS

The absolute success of an implant prosthesis depends upon: the implant material and its design and diameter, interfacing with an appropriate thickness and length of cortical bone. The location of placement and the bone quality of the site will determine the best initial stability (for osseointegration) and subsequent resistance to forces (necessary to maintain osseointegration). The design and strength of the abutment/implant connection is the final determining factor for success.

continued

Attention will be given to:

1. Implant material
2. Implant surface
3. Implant design
4. Prosthetic connection design

BIOGRAPHY

Dr. Niznick received his Certificate in Prosthodontics from the University of Southern California in 1967 and his Master of Dental Materials from Indiana University in 1969. He is the developer of the CORE-VENT IMPLANT SYSTEM.

Room: 205B

Time: 9:00 - 11:30 a.m. and 2:15 - 4:45 p.m.

THE IMPACT OF COSMETIC PERIODONTAL SURGERY ON RESTORATIVE DENTISTRY

(Morning Lecture)

BURTON LANGER, D.M.D., M.S.D.

SYNOPSIS

Major advances in restorative dentistry have redefined anterior cosmetics; yet, deformities in gingival tissue height and shape can disable even the most creative dentistry. This presentation will describe a variety of situations in which periodontal procedures can

enhance the esthetics of restorative dentistry.

New regenerative procedures will be presented which can be used for single teeth, fixed bridgework, laminates and implants.

OSSEOINTEGRATION — 8 YEARS LATER — HAS IT FULFILLED ITS PROMISE (Afternoon Lecture)

SYNOPSIS

The lecture will describe Dr. Langer's past eight years experience with osseointegration, for both the full and partially edentulous patients. A major emphasis will be given to the importance of treatment planning as it relates to long-term success.

Special topics will be addressed such as: the importance of fixture placement, the real use of radiography, the improvements in esthetics using various types of new abutments, the strategy of the single tooth restoration, the placement of fixtures in areas of minimum amounts of bone and the advent of rescue procedures in failed implants. The lecture will also try to clarify some of the ambiguities surrounding implant placement, such as: immediate placement after extraction, the use of Goretex and autogenous bone grafts.

continued

THIS AFTERNOON LECTURE IS PARTICULARLY OF INTEREST TO PERIODONTISTS

BIOGRAPHY

Dr. Langer graduated from Boston University in 1966 with his M.S.D. in Periodontics and became a diplomate of the American Board of Periodontology in 1972. He was associate professor of periodontics at Columbia University from 1966 to 1977 and presently attends in periodontics at White Plains Hospital.

INFECTION CONTROL IN DENTISTRY: THE SHORT COURSE

DR. CHARLES JOHN PALENIK

SYNOPSIS

Infection control over the last five years has become an integral part of the practice of dentistry. A significant portion of this change in emphasis involved increasing concern about the possible transmission of blood-borne pathogens during treatment. This course

is designed to present and briefly review the major components of a dental office infection control program. Central topics include modes of microbial spread, sterilization, disinfection, use of personal and environmental barriers, vaccination and health records, laboratory asepsis and chemical and infectious waste management. Materials presented didactically will be supported by an extensive handout set. The goal of this presentation is to identify effective, yet practical methods which protect practitioners and patients from potential infections.

BIOGRAPHY

Dr. Palenik graduated in 1980 from the Indiana University School of Dentistry with his Ph.D. in Preventive Dentistry. Currently he is Professor, Department of Oral Microbiology and Director/Human Health and Safety, Indiana University School of Dentistry.

DR. PALENIK'S LECTURE IS OF INTEREST TO THE ENTIRE DENTAL TEAM.

THE TORONTO ACADEMY OF DENTISTRY GRATEFULLY ACKNOWLEDGES CAULK CANADA AND THANKS THEM FOR THE SPONSORSHIP OF DR. PALENIK'S PRESENTATION.

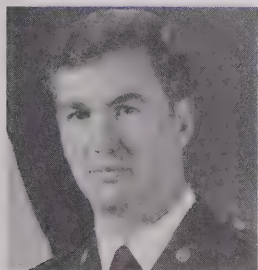

Room: 203BD

Time: 9:00 - 11:30 a.m. and 2:15 - 4:45 p.m.

DENTIN HYPERSENSITIVITY

MAJOR ROBERT W. HART, B.Sc., D.D.S.

SYNOPSIS

Hypersensitivity of exposed dentin has been a source of patient discomfort that has often posed a treatment problem for dentists. Many so-called remedies have been developed, most of which have fallen short of both the dentist's and patient's expectations.

The objective of this seminar is to present a review of dentin hypersensitivity including symptoms, etiologies, a brief review of the theories of pain production, but most importantly it will detail various methods of treatment currently available to the practitioner.

BIOGRAPHY

Dr. Hart received a B.Sc. from the University of Western Ontario (1980), a D.D.S. from the University of Toronto (1984) and a Certificate in General Dentistry from Fort Knox, Kentucky (1990).

Robert Hart is currently a Major in the Canadian Armed Forces Dental Services School at CFB Borden, Borden, Ontario. He has had postings to CFB Baden-Soellingen, West Germany, CFB Petawawa, Ontario, and Fort Knox, Kentucky.

Room: 206D

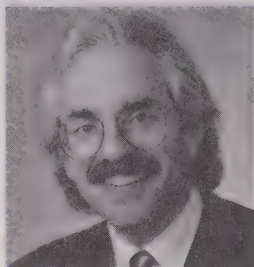

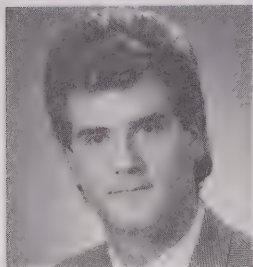

Time: 9:00 - 10:00 a.m. and 3:30 - 4:30 p.m.

BIOTECHNICAL CONSIDERATIONS FOR TOOTH RETENTION: THE RATIONALE FOR SOPHISTICATED SURGICAL ENDODONTIC PROCEDURES

DR. GARY GLASSMAN DR. KEN SEROTA

SYNOPSIS

This computer-generated presentation will address current trends and advances in surgical endodontics. Points to be discussed include: isthmus connection and anatomical variations of the root canal system, predictable perforation management, chemostatic control, retro-endodontics, new instruments and retrofilling materials for the surgical armamentarium to facilitate optimal results, and the most recent advance, **the trans-antral buccal approach to the palatal root.**

BIOGRAPHIES

Dr. Gary Glassman maintains a private practice limited to endodontics in Toronto. He is currently a clinical instructor and lecturer at the University of Toronto, Faculty of Dentistry. A Fellow of The Royal College of Dentists of Canada, Gary is an enthusiastic presenter and has been very active in dental continuing education.

Dr. Ken Serota maintains a private practice limited to endodontics in Mississauga. The former clinical coordinator for the endodontics program of the O.D.A., he received an Award of Merit for his contributions to continuing education on behalf of the dentists of Ontario.

PAIN CONTROL

DR. DANIEL HAAS, B.Sc., D.D.S.,
B.Sc.D., Ph.D., F.A.D.S.A., F.R.C.D.(C)

SYNOPSIS

Consistent success in the management of pain is one of the most challenging aspects of dentistry. These presentations will provide the dentist with an update on current approaches to intra-operative and post-operative pain control.

Morning Session — PAIN CONTROL PART I: UPDATE ON LOCAL ANAESTHETIC TECHNIQUE AND PHARMACOLOGY

This session will focus on local anaesthesia by reviewing the pharmacology of local anaesthetics and the alternative techniques for mandibular anaesthesia, including the Gow-Gates and Akinosi approaches. Questions to be considered include:

- Why do we occasionally obtain inadequate local anaesthesia?
- Are there any techniques that are “Superior” to others?
- Is failure in accomplishing adequate anaesthesia due to poor technique or inappropriate drug selection?
- What criteria should be used to select a local anaesthetic?

Afternoon Session: PAIN CONTROL PART II: UPDATE ON ANALGESICS

This presentation will consist of an update on the pharmacology of analgesics. Questions which will be considered are:

- What are the NSAIDS and opioid analgesics available for dentistry?
- How do they work and how should they be used?
- What are the specific indications for their use?
- What are their specific contraindications?
- What are the general guidelines for the use of analgesics in dentistry?

BIOGRAPHY

Dr. Haas is currently Assistant Professor, full-time, Faculty of Dentistry, Department of Anaesthesia, University of Toronto; Assistant Professor, Faculty of Medicine, Department of Pharmacology, University of Toronto; Active Staff (part-time private practice), Sunnybrook Health Science Centre, Department of Dentistry; Outdoor Attending Staff, St. Michael's Hospital, Department of Dentistry; CDA Consumer Product Recognition Committee; United States Pharmacopeial expert Advisory Panel on Dentistry.

STRESS MANAGEMENT

GREG KOVAL

SYNOPSIS

This presentation will identify typical stresses encountered on a day to day basis in the office setting.

Effective strategies for stress management will be outlined and reviewed with special emphasis on practical and effective methods appropriate in a

professional and dynamic work area.

Biography

Greg Koval established his full-time practice following 4 years at the McMaster University Medical Centre, Dept. of Psychiatry and 12 years on staff at The Mississauga Hospital as Senior Psychiatric Social Worker and Assistant Director, Department of Social Work. Greg specializes in couple and family therapy. He is a member in good standing with the Ontario Association of Professional Social Workers and The Ontario College of Certified Social Workers.

Room: 206F

"CURRENT, CONCISE, CONCENTRATED"
A GREAT DAY FOR THE ENTIRE DENTAL TEAM

A POTPOURRI OF INFECTIOUS DISEASES OF INTEREST TO THE PRACTICING DENTIST

DAVID J. MCNEELY, M.D., F.R.C.P.C

SYNOPSIS

Without question AIDS presently is the most intellectually prepossessing infectious disease. It now seems probable that a dentist practicing in Florida infected at least 5 of his patients during routine dental care. Press and Advocacy groups are raising the issue that patients should know the

HIV status of their dentists. How easily transmissible is this virus? Should I be antibody tested? How many persons are avoiding dental care out of fear of this disease?

Irrespective, there are other debilitating infectious diseases of much more immediate concern. Hepatitis A, B, C, D, and E issues will be reviewed and their status, prevalence and risk of acquisition described. How safe and effective is the Hepatitis B vaccine? Bacterial endocarditis prevention will be reviewed.

How do you respond to a herpes sore? Many intra-oral infectious diseases are sexually transmitted. Dr. McNeely will review the current treatment recommendations after first providing evidence of the clinical presentation and appearance of: herpes simplex, 1° and 2° syphilis and HIV in particular.

BIOGRAPHY

Dr. McNeely is associate professor of Medicine and Microbiology at the University of Toronto, Faculty of Medicine. He practices clinically in the Division of Infectious Diseases at the Toronto Western Hospital.

Room: 201D

Time: 10:15 - 11:15 a.m.

ADVANCES IN IRRIGATION THERAPY

MARSHA STEIN, R.D.H.

Time: 9:00 - 9:45 a.m.

SYNOPSIS

This presentation will provide an overview of the rationale for subgingival irrigation. The discussion of professionally administered and patient applied irrigation will include a review of techniques for periodontal therapy and maintenance care with consideration given to antimicrobial agents.

BIOGRAPHY

Marsha Stein is a graduate in Dental Hygiene from the University of Toronto, and she has had extensive clinical practice. Marsha lectures throughout Canada to students, faculties and professional associations.

SYSTEMATIC APPROACH TO ORTHODONTICS FOR THE GENERAL PRACTITIONER

NEIL SHAPER, D.D.S

Time: 10:00 - 10:45 a.m.

SYNOPSIS

This presentation will describe six different types of case selection for the general practitioner. There will be a detailed description of appliances used, as well as discussion of treatment timing and treatment duration. Included will be some "State of the Art" concepts on orthodontics in the 1990's. There will be a description

of adult orthodontics, including uprighting techniques of crown and bridge abutments.

continued

MINI CLINICS *continued*

BIOGRAPHY

Dr. Shapera received his D.D.S. from the University of Manitoba in 1969 and then graduated from the Orthodontic Program, University of Toronto in 1973. He has been in private practice for 18 years in Willowdale, Ontario. Dr. Shapera is an associate professor at the University of Toronto, Faculty of Dentistry, participating in continuing education for the general practitioner.

Dr. Shapera is on staff at the Hospital for Sick Children where he treats cleft lip and cleft palate cases.

THE CHALLENGE OF RETREATODONTICS

ARI GOLD, D.D.S., Dip. Endo., F.R.C.D.(C)

Time: 11:00 - 11:45 a.m.

SYNOPSIS

As the number of endodontic procedures being done goes up, so do the number of failures. In this presentation, the challenge of non-surgical endodontic retreatment will be explored. An approach to deal with separated instruments, posts, silver cones and other materials will be presented, along with successfully treated clinical cases.

BIOGRAPHY

Dr. Gold maintains private endodontic practices in Toronto and Scarborough. He is: — Clinical instructor in endodontics, Faculty of Dentistry, University of Toronto; Councillor, Toronto East Dental Society; President-Elect, George Hare Endodontic Study Club, and Fellow, Royal College of Dentists of Canada.

Mini-Clinics Chairman: Dr. Warren Hellen

**PRE-REGISTERED DENTISTS
YOUR BADGE IS YOUR RECEIPT**

HONOURARY LIFE MEMBERSHIP

WILLIAM GORDON MCINTOSH,
D.D.S., M.Sc.D., F.R.C.D(C), A.O.C.A.

The Toronto Academy of Dentistry is pleased to present Dr. William G. McIntosh its Honourary Life Membership at the Annual Winter Clinic Meeting, 1991, the culmination of the Academy's 100th Anniversary year.

Bill McIntosh was born in Hanley, Saskatchewan and attended the University of Saskatchewan prior to completing his D.D.S. degree at the University of Toronto in 1937. After graduation he practiced general dentistry in Trenton, Oshawa and Toronto while demonstrating in periodontics at the U of T. In 1942 he entered the Royal Canadian Dental Corps, serving until 1946. He immediately proceeded into specialty practice in periodontics while acting as associate professor at U of T and consultant in periodontics to the Sunnybrook Hospital and The Hospital for Sick Children. Bill obtained his M.Sc.D. in 1946 and his F.R.C.D.(C) in 1966.

Meanwhile Bill was honing other skills. Formally these focused when he became Executive Director of the C.D.A. in 1965, a post he occupied until 1976. However, this employment shift developed as a result of a number of organizational involvements undertaken while still in active periodontic prac-

continued

tice. To list a few: Chairman C.D.A. Research Committee 1949-1954, C.D.A. Board of Governors 1957-1961, President C.D.A. 1959-1960 and Chairman C.D.S.P.I. 1961-1964.

However, his retirement from the C.D.A. in 1976 at age 61 acted as a catalyst for another career, this time in world-wide organized dentistry.

While acting as executive director for the C.D.A., he coincidentally sat as a Commission member and as a Council member of the Federation Dentaire Internationale until 1977 at which time he became Vice President of F.D.I. culminating in his Chairmanship of the F.D.I.'s 65th World Congress in 1977!

Well catch your breath!

This is a list of honorary degrees and memberships of which we can list but a few: — F.A.C.D., F.I.C.D., LLD University of Saskatchewan 1972, D.Sc. McGill 1980, Elmer Best Award 1980, A.D.A., Alpha Omega International, O.K.U., and the F.D.I. List of Honour.

But there is another side to Bill's achievements and that is the one of his family. Bill married Marion Patton in 1946. Marion was an honours graduate of U of T in Languages and Political Science. In pursuit of those interests, after graduation she packed off to Europe on a freighter and spent her time working in Britain and then in Germany, shipping out just before Hitler kicked off the war. They have three children, Gail, Ann and Chad (who practices dentistry in Vancouver).

However, the story and the career do not end there because in addition to his hobbies of swimming, golfing, skiing and of course travel, Bill has fashioned another career — sculpting. In the pursuit of that interest he obtained his A.O.C.A. degree from the Ontario College of Art in 1984. Anyone fortunate enough to have seen, or better still to own, one of his pieces can attest to the fact that he has embedded in those works the same features that were embedded in his other careers.

Therefore it is with the greatest pleasure that the Academy presents its Honourary Life Membership Award to Dr. William McIntosh.

1991 WINTER CLINIC
"CURRENT, CONCISE, CONCENTRATED"
A GREAT DAY FOR THE ENTIRE DENTAL TEAM

HONOURARY LIFE MEMBERSHIP

WILLIAM S. MACKENZIE, D.D.S.

MRS. SARAH ANN MACKENZIE

WHAT A TEAM!

Over more than 40 years Bill and Ann MacKenzie have devoted themselves to the interests of dentistry in Ontario generally and in Toronto in particular. Therefore the Toronto Academy of Dentistry is pleased to present to them on the occasion of the 54th Annual Winter Clinic this extraordinary award of its Honourary Life Membership.

Bill is one of those special few, perhaps privileged, persons to have been born, bred, schooled and to have practiced in Toronto — and to continue to do so. After service with the Royal Canadian Air Force during 1943-46, he entered Dentistry at the University of Toronto and graduated in 1951.

Shortly after, Bill became a councillor of the North Toronto Dental Society and advanced to the Academy of Dentistry, becoming its President in 1975. Additionally, he served with the Royal College of Dental Surgeons, and the Ontario Dental Association on many committees and received its Award of Merit in 1986. He was President of CDSPI from 1972 to 1973. In 1976 Bill, in recognition of his services to the profession and community, was made a Fellow of the International College of Dentists.

It is in regard to community service that some emphasis needs to be made. To serve one's profession outside the office is commendable in itself; however, either by taking the initiative or being asked to serve in the interests of one's community puts a special stamp on the quality of the person. A description

continued

continued

of Bill's efforts in that capacity will emphasize his selection for this award.

Principally Bill has been a force in politics as a member of Eglinton Riding Association for which he has acted as President. He twice ran for Trustee of the Board of Education as well as serving on the Home and School Association for many years. For eleven years he served the Family Service Association of Metropolitan Toronto in many capacities and of which he is a Life Member. In his church work he has chaired many committees within his parish and for the presbytery. Other memberships include: The Royal Canadian Legion; The Royal Canadian Dental Corps Association; presently Secretary; The Canadian Federation of Independent Business; The National Citizen's Coalition and The Muskoka Lakes Association.

To be born, bred, and schooled, to work and to live in Toronto is special indeed, but to marry and proceed to raise a family with one equally so related, must be very special. When Ann and Bill married such a very special relationship was struck.

Ann graduated from Branksome Hall School in 1948 and Bill, quickly recognizing her attributes, swept her up as a child bride shortly thereafter in August 1949. By November 1950 they had their first child Cynthia. Wendy was born four years later.

Meanwhile Ann began to forge her own career. She became a member of the Canadian Handicraft Guild, an organization with whom she was associated from 1951-71, during which time she won many prizes.

Much of her interest centred on the church. Ann has been continuously and actively involved as a member of Timothy Eaton Memorial Church. She is a Life Member of the United Church Women and an elder and Past President of the Sanctuary Guild.

In 1975 Ann became President of the Ladies Auxiliary to the Academy of Dentistry Toronto, and presently she is President of the Ladies Auxiliary of the Ontario Dental Association.

For over thirty-two years Ann has served on the ODA Convention Committee, especially as Chairman of the Spouse's Committee six times. For this and other services she received the Barnabus Day Award from the ODA in 1986.

Ann is a Life Member of the Family Service Association of Metropolitan Toronto; a member of the Progressive Conservative Federal and Provincial Associations; a member of The Muskoka Lakes Association; The Friends of the Women's College Hospital; a member of The Royal Commonwealth Society and a Life Member of Branksome Hall.

What one can do for others in a lifetime is commendable in itself; what Bill and Ann MacKenzie collectively have done for others is much more than that. It is in that spirit of appreciation that the Academy awards their Honourary Life Membership to this very special couple.

FIRST STATED MEETING

FRIDAY, FEBRUARY 7, 1992

ESTHETICS, CREATIVITY, DIRECT RESIN BONDING AND YOU

Presented by

DR. K. WILLIAM (BUD) MOPPER

Winnetka, Illinois

In its dedicated interest to provide its members with the type of information they can use, the Academy is pleased to have the accomplished Dr. Bud Mopper present his approach to Esthetics, Creativity, Direct Bonding and You.

Statistically the mix of services that the general dentist provides today is markedly different from only a decade ago. One of the major shifts has been toward esthetics in its own right.

Dr. Mopper's presentation is concerned with the use of composite resins. He explains how to produce life-like full veneers and invisibly integrate routine restorations with advanced techniques of placement, color, contouring and polishing.

Watch your restorations come alive! Learn how to:

Close Diastemas

*Make **Direct** Veneers Look Real*

Do Restorative Orthodontic Correction

Place Posterior Restoratives

Construct Full Bonded Anterior Crowns

Use Opaques and Tints

Polish to Enamel-Like Lustre

Communicate Patient Esthetic Needs

Dr. K. William (Bud) Mopper graduated from the University of Illinois in 1966 with his M.Sc. and Specialty Certificate in Pedodontics. He is Fellow of the American Academy of Pedodontics and a Diplomate of the American Academy of Cosmetic Dentistry.

Dr. Mopper has lectured extensively and has co-authored "A Complete Guide to Esthetic Bonding" and "Coloring with Resins".

Use the enclosed registration form to register now or look for the Early Registration Desk at the Winter Clinic. Reduced fees are being offered for those who register on or before the Winter Clinic.

EMERGENCY SERVICE

The Academy offers a daytime referral as well as after hours emergency service.

During the day have patients call **967-5649** and they will be referred to a dentist who will take emergencies. If a patient calls **967-5649** after hours, an answering machine will give them the number of the after hours answering service for emergencies.

AFTER HOURS:

Monday - Friday — 4:30 p.m. - 1:00 a.m.

*Saturday, Sunday, Holidays —
9:00 a.m. - 1:00 a.m.*

The telephone number which is picked up after hours is **924-8041**.

If you are interested in becoming a member of the Emergency Service, and you practise in Metropolitan Toronto, please call the Academy office at 967-5649.

Dr. Flavio Turchet & Dr. Ron Richardson
Chairmen, Emergency Service

ASSOCIATE PLACEMENT SERVICE

The Academy offers a Placement Service for those looking for an associateship or those requiring an associate.

If you need assistance, please contact the Academy office at 967-5649.

1991 GOLF TOURNAMENT

DR. PETER TONISSON, CHAIRMAN

Once again the Academy of Dentistry had a successful Golf Tournament at Glen Abbey. There were many dentists as well as members of the industry who attended and the Academy would like to thank the following companies for their prize contributions.

PAST PRESIDENTS OF THE TORONTO ACADEMY OF DENTISTRY

The Past Presidents of the Toronto Dental Society are identified as Past Presidents of this Academy. Below is a list of Past Presidents from 1891 to 1991.

1891-92 N. Pearson*	1939-40 Wm. G. Trelford*
1892-93 J.B. Willmott*	1940-41 Edmund T. Guest
1893-94 N. Pearson*	1941-42 Steward A. MacGregor
1894-95 W.H. Wunder*	1942-43 Lloyd M. Grose*
1895-96 G.S. Martin*	1943-44 Charles McLean*
1896-97 H.E. Eaton*	1944-45 Harold Skilling*
1897-98 J.J. McDonagh*	1945-46 Harold Swales*
1898-99 J.E. Wilkinson*	1946-47 H. Colton Bliss*
1899-1900 J.B. Willmott*	1947-48 F. Harold Shepherd*
1900-01 A.E. Webster*	1948-49 Joseph H. Johnson*
1901-02 F.D. Price*	1949-50 Edgar A. White
1902-03 W.E. Willmott*	1950-51 Earl Bancroft*
1903-04 G.S. Martin*	1951-52 Mark G. Boyes
1904-05 C.E. Pearson*	1952-53 J. Gordon Chalmers*
1905-06 W.G.L. Spaulding*	1953-54 Elmer J. Henderson*
1906-07 J.B. Willmott*	1954-55 W. James Smith*
1907-08 R.G. McLaughlin*	1955-56 J. Bevan King*
1908-09 A.J. McDonagh*	1956-57 Harvey Milburn
1909-10 H.E. Eaton*	1957-58 Robert W. Marshall
1910-11 A.E. Webster*	1958-59 William A. Weir *
1911-12 A.D.A. Mason*	1959-60 James A. Bigelow
1912-13 C.A. Kennedy*	1960-61 Vernon A. Herron*
1913-14 W.E. Willmott*	1961-62 Arthur E. Histrop*
1914-15 G.W. Grieve*	1962-63 John H. Mullett
1915-16 F.C. Husband*	1963-64 Robert M. Grainger
1916-17 E.F. Arnold*	1964-65 J.E. Carson McGowan
1917-18 W.B.T. Amy*	1965-66 Murray Cornish
1918-19 J.E. Rhind*	1966-67 Morley G. Hardy
1919-20 R.D. Thornton*	1967-68 Gordon M. Marshall
1920-21 W.H. Coon*	1968-69 Bert J. Levin
1921-22 H.A. McKim*	1969-70 George C. Stirling
1922-23 R. Gordon McLean*	1970-71 Wilfred J. McColeman
1923-24 J.A. Bothwell*	1971-72 Miet A. Kamienski
1924-25 Arthur Day*	1972-73 Don M. McKee
1925-26 W.G.L. Spaulding*	1973-74 Bernard N. Crystal
1926-27 H.G. Robb*	1974-75 William S. MacKenzie
1927-28 R.S. Woollatt*	1975-76 Robert S. McKegney
1928-29 W.B.T. Amy*	1976-77 Ronald S. Anco
1929-30 T.E.C. Butler*	1977-78 Murray Wagman
1930-31 E.C. Veitch*	1978-79 Gordon Perlmutter
1931-32 J. W. McDonald*	1979-80 Robert H. Pick
1932-33 Thomas R. Marshall*	1980-81 Len Shapira
1933-34 Edmund A. Grant*	1981-82 Ronald F. Martin
1934-35 Frank Martin*	1982-83 Ronald Traub
1935-36 William J. Kerr*	1983-84 Arthur J. Breglia
1936-37 Stanley S. Crouch*	1984-85 James T. Hing*
1937-38 Harvey W. Reid*	1985-86 Alexander J. Puskas
1938-39 Harold Hoag*	1986-87 Stewart Sigismund
	1987-88 Donald Stewart
	1988-89 Barry Chapnick
	1989-90 Aldo Boccia
	1990-91 Wayne Pulver

HONOURARY LIFE MEMBERS OF THE ACADEMY OF DENTISTRY

1932 TO 1991 INCLUSIVE

Albert E. Webster*, D.D.S., M.D., M.D.S.	1932
Walter Earl Willmott*, D.D.S.	1933
Harold Clark*, D.D.S.	1934
Andrew J. McDonagh*, D.D.S.	1935
Charles Nelson Johnson*, D.D.S., M.D.S., F.A.C.D., L.L.D.	1936
William Cecil Trotter*, B.A., D.D.S.	1938
Charles E. Pearson*, D.D.S.	1939
George W. Grieve*, D.D.S.	1940
Harold Keith Box*, D.D.S., Ph.D., F.A.C.D.	1942
Robert Gordon McLean*, D.D.S., F.A.C.D.	1946
William Glen Trelford*, D.D.S.	1946
Arnold D.A. Mason*, D.D.S., F.A.C.D.	1947
W.B.T. Amy*, D.D.S., F.I.C.D.	1947
Harry S. Thomson*, D.M.D., F.A.C.D.	1949
Harvey W. Reid*, D.D.S., F.A.C.D., F.D.S., R.C.S. (Eng)	1951
Edgar W. Paul*, D.D.S.	1953
John A. Bothwell*, D.D.S.	1955
Frank Martin*, D.D.S., F.I.C.D.	1957
Thomas Robert Marshall*, D.D.S., F.A.C.D.	1958
Roy G. Ellis *, D.D.S., M.Sc.D., F.D.S., R.C.S.(Eng)	1960
Percy G. Anderson*, D.D.S., M.I.C.D., F.A.C.D.	1961
Don W. Gullett*, D.D.S., F.I.C.D., F.A.C.D., Hon F.R.C.S.(Eng)	1963

Murray Cornish, D.D.S., F.I.C.D.	1974
Edgar A. White, D.D.S., M.I.C.D.	1975
Mark G. Boyes, D.D.S., F.I.C.D.	1977
Mark Zimmerman*, D.D.S., F.I.C.D.	1977
John A. Sherman*, D.D.S., F.I.C.D., F.A.C.D.	1979
Edmund T. Guest, D.D.S., F.A.C.D.	1980
Herbert Mercer*, D.D.S.	1980
Majorie Jackson, D.D.S., F.R.C.D.(C)HON., F.I.C.D.	1981
Harry Jolley, M.B.E., D.D.S., F.A.C.D., F.I.C.D.	1981
Lloyd M. Grose*, D.D.S., F.I.C.D.	1982
Miet Kamienski, D.D.S., F.I.C.D.	1983
Kenneth I. Levinson *, D.D.S., F.I.C.D., F.A.G.D., Major	1984
Harvey Milburn, D.D.S.	1985
Elliott Siegel*, M.D., D.D.S.	1986
Arthur Wood, D.D.S., F.R.C.D.(C)	1987
William J. Spence, D.D.S., M.S.D., F.I.C.D., F.A.C.D.	1988
Charles H.M.I Williams, D.D.S., B.Sc.D., F.A.A.P., F.R.C.D.(C), D.Sc. (McGill)	1989
Kenneth Pownall, D.D.S., F.R.C.D.(C) Hon., F.A.C.D., F.I.C.D.	1990
William G. McIntosh, D.D.S., M.Sc.D., F.R.C.D.(C), A.O.C.A., F.A.C.D., F.I.C.D., L.L.D., D.Sc.	1991
William S. MacKenzie, D.D.S.	1991
Sarah Ann MacKenzie	1991

WHAT WILL HAPPEN TO YOUR OFFICE IF YOU ARE SICK OR DISABLED?

ACADEMY OF DENTISTRY MUTUAL AID PLAN

This is a group of dentists who will help a member of the group at a time of distress. Ideally the group will number about twenty, but the number fluctuates as people join and leave. If you are a member of this group, and are unfortunate enough to be unable to practise because of illness or accident, the members of the group will take turns in operating your practice, with your auxiliaries, to a maximum of four days per week, for a number of weeks. This will provide service for your patients in case of emergencies, completion of treatment in progress and maintain the flow of recall patients.

Some of the benefits are, maintaining service availability to your clientele and employment for your auxiliaries as well as preventing the formation of a huge backlog of patients waiting for your return. If it becomes necessary for a practice to be sold, the plan can maintain the viability of the practice until the sale can be completed. The other members of the plan will come to your office one day at a time, on a rotating schedule. If the group numbers 20, the remaining 19 dentists would be responsible for about one day each, every five weeks for each disabled dentist. Fees are charged in the usual way at the stricken dentist's office, and the contributing dentist does not receive compensation.

The plan has been available for several years and has worked well to date for the stricken dentist. You might want to ask a friend or two to consider joining, or perhaps start a whole new group. A set of by-laws has been adopted, but they can be changed if the need arises.

Further details and a copy of the by-laws are available at the Academy office – 967-5649 or by calling Berril Garshowitz, 229 Yonge Street, Ste. 213A, Toronto, M5B 1N9, telephone 368-3375.

REPORT FROM THE MEDIATIONS COMMITTEE

A recent issue of The University of Toronto, Faculty of Dentistry Alumni Newsletter reprinted excerpts of a published newsletter which gave insights of how others see the dental profession and what influences the cost of dental care. The underlying theme was greed and a generation of “me” oriented dentists.

As a profession, we are dedicated individuals, and should portray ourselves to our patients as sensitive to their individual needs and interested in their overall dental health.

We cannot be too careful of what is said to our patients and how it is said. Even unexpressed words or thoughts have a way of escaping.

The Mediations Committee of The Toronto Academy of Dentistry is a group of well meaning volunteer dentists who spend much time trying to iron out problems between patients and their dentists when communications break down in the professional relationship we should always be trying to build. False expectations of treatment, failures in treatment, and cost of treatment are some of the many problems we have to deal with.

I hope that you will never require our help, however, should the need arise and you receive a letter from our committee requesting your response to a problem which we are trying to resolve (for you!) please give us your cooperation and assistance freely and openly so that you and your patient can work out any differences without further escalation.

On behalf of The Academy and the profession, I would like to thank our Committee members and our office staff, Raisyl Wagman and Pat McCance for all their efforts on our behalf.

Gilbert Chapnick, D.D.S.
Consultant, Mediations Committee,
Toronto Academy of Dentistry

Tytin® Amalgam Alloy

Producing a consistent amalgam restoration for your patients is the challenge you face every day. You've seen patients with amalgams that don't measure up to your standards of quality. But there is one bloodline that truly is the thoroughbred of alloys — Tytin.

For years Tytin has remained the favorite of practitioners like you because of its *patented spherical particle formula*.

- Extremely smooth, easy to place and carve.

- High-silver content maintains its luster over time.
- Extensive clinical documentation of excellent marginal integrity.*

Tytin has even been shown clinically to accept immediate polishing (8 minutes) in Class I restorations... while delivering results equal in quality to 24-hour polishing!

For more information about the thoroughbred of alloys — or about the complete line of Kerr amalgam alloy products — contact your Kerr dealer or write to Kerr.

— NOTES —

— NOTES —

We go to great lengths to give you service.

Service is much more than a word to us — it's a commitment, an attitude that drives our organization and guides our every action.

We know that when you need one of our products, you need it fast. When we receive your call we immediately fill your order and send it out without delay. We know you can't afford to waste time.

We excel at service. We have the inventories and the people

on the job right across the country — in most cases only a telephone call away.

Our people draw upon the most sophisticated resources in the industry, to provide you with everything you need to make your business flourish.

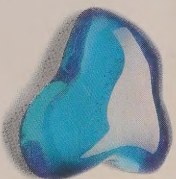

Call us. We're there when you need us.
